

**PROCESS
ANALYZER
QUESTIONNAIRE**

Date: _____ Rep: _____ Budget Requirement: \$ _____
 Project Date: _____ Delivery Requirement: _____
 Name: _____ Title: _____
 Company: _____ Phone: (____) _____ - _____
 Address: _____ Fax: (____) _____ - _____
 _____ E-Mail: _____

APPLICATION	General Description of Process		
_____	_____		
Measured Component: _____	Range: _____	Units: _____	Accuracy: _____
Measured Component: _____	Range: _____	Units: _____	Accuracy: _____
Measured Component: _____	Range: _____	Units: _____	Accuracy: _____

SAMPLE COMPOSITION	Normal	High	Low
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
Water Vapor	_____	_____	_____
Particulate (Dust, Etc.) Loading / Size	_____	_____	_____
Dew Point °F / °C	_____	_____	_____
Sample Temp at Tap °F / °C	_____	_____	_____
Sample Pressure at Tap Units _____	_____	_____	_____
Sample Return Pressure Units _____	_____	_____	_____
Will sample stream contain water or other forms of liquid condensate?	_____	_____	_____

ANALYSIS & OUTPUTS:

Signal Output: mA: 4-20 _____ Other (specify) _____ Isolated? _____
 Options: Alarm Relays _____ Flow Alarm _____ Auto Calibration _____
 Pressure Compensation _____ Temperature Compensation _____ Heated Cell _____
 Sample Conditioning System: By Servomex _____ By Others _____

SITE INFORMATION:

Available Power: _____ volts AC @ _____ Hz
 Area Rating: Non Hazardous _____ Hazardous: Class _____ Div. _____ Group _____
 Analyzer Location: Indoor _____ Outdoor _____ Ambient Temp. _____ °F / °C
 Materials Incompatible with Sample: _____
